About the Continuing Competence Program (CCP)

Every LPN must participate in the CCP annually as a requirement of registration renewal. Participation includes conducting a self-assessment of one's competence, developing and implementing a professional learning plan, and reflectively evaluating the learning plan upon completion. Every year, a percentage of LPN's in New Brunswick are randomly selected to participate in the CCP Audit Process. Those selected in the audit are required to submit their annual record of professional learning plan (from the previous year) to the Association to have it evaluated for completeness.

About the Self-Assessment Component of CCP

The goal of the annual self-assessment is to encourage you to think about, or reflect, on your practice in the context of the Standards of Practice and Code of Ethics. (Click [HERE](#) to download a copy of the documents.) There are no wrong or right answers, but your answers do mean something. For instance, if you self-select a low rating to one of the indicators, consider building your learning plan so you can increase your rating over time.

NOTE: Keep your self-assessment tool in your personal files at home and DO NOT SEND it to the Association.

Instructions for Completing the Self-Assessment Tool

The self-assessment tool is structured around the ANBLPN Standards of Practice and Code of Ethics documents. Read each indicator and rate your individual competence using the following scale:

1. **Novice:** You have little or no experience or ability with the practice associated with the indicator and need additional learning in order to meet it.
2. **Intermediate:** You have minimal experience or ability with the practice associated with the indicator and need some additional learning in order to meet it.
3. **Proficient:** You satisfactorily meet this indicator because you have sufficient experience or ability with the practice associated with it.

Completing your Professional Learning Plan

Towards the back of this document, you will find two pages where you can keep track of your professional learning goals for the year. Learning goals can be met in a variety of ways; through formal and professional education as well as informal learning by participating on committee or boards, unit in-services, staff meetings or mentorship.

Establishing learning goals is an important part of meeting your continuing competence as a Licensed Practical Nurse. You are required to have two learning goals per year to meet the requirements of your licensure.

Completing your Professional Learning Plan

The following two pages are provided for you to keep a record of your professional learning plan for the year. You may use this tool to complete your annual CCP requirement.

The most important part of your activity is the reflective evaluation of your learning and reflection requires time. So come back to this section in 6 to 8 months and describe *how* you have been using this information to improve your practice and make a positive difference for clients.

Record of Professional Learning Plan for Licensure Year

December 1st, 20__ - November 30th, 20__

Name:	Registration #:	Date Goal Completed:
-------	-----------------	----------------------

Professional Learning Goal #2: What new knowledge/goal do you want to achieve?

Projected Outcomes: How will achieving this goal help improve your nursing practice and client outcomes?

Objectives/Activities: How do you plan to achieve this goal? What activities will you complete to achieve this goal?

Fill in this section once you have completed your learning goal

Did you receive a certificate of attendance or participation while achieving this goal?

YES

NO

*A certificate of attendance is not required, however, if you have received one, keep it in your files. **DO NOT** send it to the Association.*

New Knowledge: Identify something specific you learned by achieving this learning goal

Reflective Evaluation: Describe how you use this new knowledge to improve your practice and positively impact your patient outcomes.
